# Cover materials

Soft Pink (V11), Aquamarine Blue (V23), and Ecu Beige (V15) – these are the cover materials available in the “Newborn & Kids” collection. Once you choose one of them, it will become the main colour of your chosen products. Once again, it's all about consistency and the visual harmony of products created from your session.

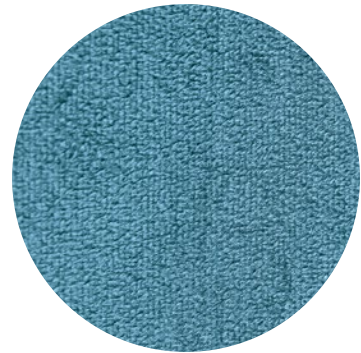

Velvet covers aren't the only option available in this collection. You can order the Photo Album or DUO Lite, for example, with a printed cover. The Photo Album is also available with an acrylic cut-out window option. You'll find more details in the descriptions of each photo product.

# Photo Album

If you could choose just one photo product for your child's photo session – choose the Photo Album. It's the only one you'll need to fit all the most important shots from the session. You can have up to 40 spreads and many personalisation options to highlight the special nature of this photo-filled keepsake. The square, handy format of the Photo Album allows the photos to be laid out in a way that tells a beautiful story – one you'll enjoy returning to.

Velvet colour options for the Photo Album in the collection include: **Soft Pink (V11)**, **Aquamarine Blue (V23)**, and **Ecru Beige (V15)**. Each of them is perfect for children's sessions: girly pink, boyish blue, or a universal beige (Ecru Beige).

Keepsakes should be durable and long-lasting - even the small ones. Folio Prints Lite feature a stiff, reinforced design that makes them resistant to creases and bends. Thanks to their thickness, you can display them on a shelf as decoration or place them on a wooden easel for a beautifully presented look. Folio Prints Lite are double-sided, offering more possibilities than traditional, soft Prints.
